

Book 18: Main population sets

The book “Main population sets” presents a complex overview of the results of 2011 Census of population, households and dwellings on main characteristics of the population of the Republic of Serbia¹⁾ to the level of region:

Table 1 shows data on population by age and sex. The data on age are given in completed years of life (0, 1, 2,...,100+), and the data on infants below one year of age are given in completed months (0, 1,...,11).

In Table 2 presented are data on population aged 15 and over by year of birth, sex and legal marital status.

Table 3 presents data on population by ethnicity and mother tongue.

Table 4 comprises data on population by ethnicity and religion.

In Table 5 presented are data on population aged 15 and more by ethnicity, age, sex and educational attainment.

Table 6 contains data on population aged 15 and over by age, sex and school attended.

Table 7 contains data on total population by age, sex and economic activity.

In Table 8 offered are data on economically active population who performed occupation, by occupation and industry.

Detailed data can be found in an electronic form on internet pages: www.stat.gov.rs и www.popis2011.stat.rs.

2011 Census was carried out during the period from 1 – 15 October 2011, in compliance with the Law on Census of population, households and dwellings (“The Official Gazette of the RS, no. 104/09 and 24/11). The Census is financially supported by the European Union which has participated in the total costs with 60%.
